Equity. Privilege. Opportunity.

You may be wondering why we would emphasize these words on our annual report. Ultimately, they're at the root of everything that LSA has experienced, witnessed, and sought to address over the past year.

Where does access to safe, reliable, and affordable transportation intersect with food justice, affordable housing, gentrification, economic opportunity and so many other pressing issues that Tucsonans confront? How can we truly serve communities with the greatest need? Are we being responsive to voices from across our city?

The past year has been a time of reflection, reorganization, and for sowing seeds to take LSA in a new direction. It's been a vulnerable, challenging, rich, and inspiring experience for all of us, leading to new partnerships that we look forward to strengthening in the years to come.

Thank you for helping support and nurture LSA as we work together to create streets of opportunity, inclusive transportation, and equitable mobility for all of Tucson. After six years, we can officially say that "we're just getting started." Looking forward to the road ahead!
